- High reliability RF technology
- External audio input
- One-button pairing
- 10-hour full-charge operation
- 4-hour use from a one-hour quick charge
- 200' range
- Non-slip surface

The G2 Spoke Classroom Audio System

The G2 Spoke Classroom Audio System is a wonderful blend of technology, features, ease-of-use, and convenience. Spoke is available in stand-alone configurations for classrooms with existing display technology or embedded into G2's newest line of Interactive Flat Panel Displays named G2 *slim*.

Both the stand-alone and embedded versions of Spoke can support up to four microphones, in any combination of Spoke Teacher Microphones and Spoke Student Microphones.

The G2 Spoke Student Microphone

The G2 Spoke Student Microphone works with both the stand-alone and embedded versions of Spoke. It fits comfortably in even the smallest student's hands and has a non-slip coating on the sides and back so it stays in those hands!

Rugged Enough for the Classroom

The entire G2 Spoke Classroom Audio System was designed by audio experts who are also classroom experts. The classroom can sometimes be a hard environment for technology products, Spoke's Student Microphone was designed to be rugged, classroom rugged!

Communications Technology

The G2 Spoke Classroom Audio System uses radio frequency (RF) operating in the 1.9GHz range. No license is required. The Spoke system automatically selects from among 120 channels. This technology enables an abundance of Spoke Teacher Microphones and Spoke Student Microphones to operate in the close proximity typical of many schools.
